NOTIFICATION OF CLOSURE INSTRUCTIONS

Per §178.2(c) of the Title 49 Code of Federal Regulations, listed below are the components and closure methods used in the certification of the specified flexible intermediate bulk container (FIBC) design.

Copies of this notification must be transferred to any subsequent distributors and the person(s) preparing the specified FIBC for shipment. The notification provides the shipper with the information required to prepare the FIBC in the same manner in which it was UN certified.

IMPORTANT! Substitution of any of the components or failure to adhere to the specified closure instructions will render the UN certification invalid.

FIBC Description:

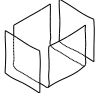

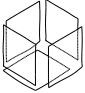

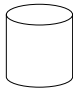

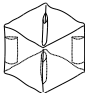

Style Code:

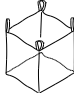

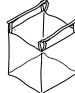

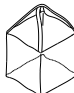

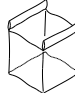

Specification #:

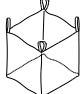

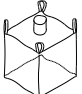

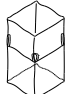

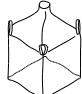

FIBC Dimensions:

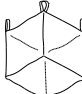

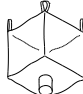

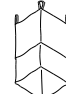

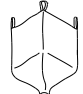

Safe Working Load:

Body Fabric:

Style			
<input type="checkbox"/> U-Panel	<input type="checkbox"/> 4-Panel	<input type="checkbox"/> Circular	<input type="checkbox"/> Baffle
			

Handling Features			
<input type="checkbox"/> 4-Loop	<input type="checkbox"/> Stevedores	<input type="checkbox"/> Single	<input type="checkbox"/> Sleeve
			

Inlet / Top Style			
<input type="checkbox"/> Open	<input type="checkbox"/> Spout	<input type="checkbox"/> Duffle	<input type="checkbox"/> Cone
			

Outlet / Bottom Style			
<input type="checkbox"/> Flat	<input type="checkbox"/> Spout	<input type="checkbox"/> Full	<input type="checkbox"/> Cone
			

Notes (FIBC):
